# FOREWORD

It is indeed a matter of immense pleasure and privilege for me to announce that my dream of establishing a quality education institute in Pasrur City has come true. In my 31 years of illustrated military career, I have traversed the entire length and breadth of Pakistan and nearly half of the World.

The countries and families who have invested in education are reaping the dividends. Education is my passion and I have lot of experience and ideas in this field. I have keenly studied the education system of Europe and USA while I was there during my official assignments. My conclusion is that the whole edifice of development of these nations revolves around their education system.

Unfortunately, our education system is not progressive and only focuses on cramming. **While getting good marks in examination is very important, the personality / character development, confidence building, analytical thinking and improved communication skills are equally important to be a successful person in practical life.** Presently, our system is imparting 'Taleem' (education) but missing the important aspect of 'Tarbiyat'.

The purpose of establishing 'Leaders' Inn Education System' is to provide such a conducive environment in Schools whereby students can develop leadership traits and achieve academic excellence to lead in their chosen field of profession. Special focus will be given to discipline their thoughts and life. At the same time students will be encouraged to undertake social work to learn humanity. **The School has developed a wide range of leadership and co-curricular modules to nurture, grow and refine the hidden talent of your child.** Therefore, involvement, assistance and cooperation of parents at every stage is very important.

I am also thankful to my wife Mrs Humera Shahid for leaving all the facilities / attractions of Lahore and supporting my decision to establish a School in my native town i.e. Pasrur. She is also an experienced educationist and had been Principal of Army Public School & College System Khuzdar for more than two years beside volunteer teacher in Lanier Elementary School, Tampa, USA. Her experience and involvement in School affairs will definitely help us to achieve our set benchmarks.

# ABRAHAM LINCOLN'S LETTER

TO HIS SON'S HEADMASTER

My son starts School today. He will have to learn, I know, that all men are not just, all men are not true. It will take time, I know a long time, but teach him, if you can, that a dollar earned is of more value than five found. Teach him, to learn to lose and also to enjoy winning. Steer him away from envy, if you can, teach him the secret of quiet laughter, let him learn early that the bullies are the fastest kick. In school, teach him that it is far more honourable to fail than to cheat. Teach him to have faith in his own idea, even if anyone else tell him they are wrong. Teach him to be gentle with gentle people and rough with rough. Try to give my son the strength not to follow the crowd when everyone is getting on bandwagon.

Teach him to listen to all men but teach him also to filter all he hears on a screen of truth, and take only the good that comes through. Teach him, if you can, how to laugh when he is sad. Teach him there is no shame in tears. Teach him to sell his brawn and brain to the highest bidders, but never to put a price tag on his heart and soul. Teach him to close his ears to a howling mob and to stand and fight if he thinks he is right. Treat him gently; but do not cuddle him because only the test of fire makes the fine steel. Let him have the courage to be impatient: let him have the patience to be brave.

Teach him always to have sublime faith in himself; then he will always have sublime faith in mankind. This is a big order, but see what you can do about it. He is such a fine little fellow, my son.
